<b>RGESS Eligibility</b>	<p>As announced in the Union Budget 2012-13, the Finance Act 2012 has introduced a new section 80CCG on 'Deduction in respect of investment made under an equity savings scheme' to give tax benefits to new investors who invest up to ₹ 50,000 and whose gross total annual income is less than or equal to ₹ 12 lakhs.</p> <p>The Department of Revenue, Ministry of Finance (MoF) has vide notification 94/2013 dated December 18, 2013, notified RGESS. The notification is available on the website of Income Tax Department under section "Notifications" which also furnish the details for procedure at time of opening demat account, procedure for investment under the RGESS, period of holding requirements etc. The Exchanges shall furnish list of RGESS eligible stocks / ETFs / mutual fund schemes on their website.</p> <p>The objective of RGESS is to encourage the savings of the small investors in domestic capital market. The eligible Investors shall apply for claiming deduction in the computation of total income of the assessment year relevant to a previous year on account of investment in the Scheme under sub-section (1) of section 80CCG of the Income-tax Act, 1961 (the "Act"). The deduction under RGESS shall be available to a Retail Individual Investor who complies with the conditions of RGESS and whose gross total income for the financial year in which the investment is made under the Scheme is less than or equal to twelve lakh Rupees.</p> <p>LIC Nomura MF ETF Nifty 100 shall invest in constituents of Nifty 100 Index which forms a part of eligible investment criteria for Rajiv Gandhi Equity Scheme, 2012. Thus, investments in the fund would qualify for tax benefits under RGESS, subject to investors fulfilling the other eligibility criteria of 80CCG of the Income-tax Act, 1961.</p>
<b>Rounding Off of units</b>	Based on the Allotment Price, the number of Units allotted to the nearest unit.
<b>Dematerialization</b>	<p>Units of the schemes shall be available and compulsorily be issued/ repurchased and traded in dematerialized form.</p> <p>An Investor intending to invest in LIC Nomura MF ETF – NIFTY 100, is required to have a beneficiary account with a Depository Participant (DP) (registered with NSDL / CDSL) and will be required to indicate in the application the DP's name, DP ID Number and the beneficiary account number of the applicant held with the DP.</p>
<b>Transfer of Units</b>	Units of the Scheme are transferable in accordance with the provisions of Depositories Act, SEBI (Depositories and Participants) Regulations and other applicable provisions, as may be amended from time to time.
<b>Creation of Unit</b>	<p>Creation Unit is fixed number of units of the Scheme, which is exchanged for a basket of securities underlying the index called the "Portfolio Deposit" and a "Cash Component" or cash of equivalent value.</p> <p>The Portfolio Deposit and Cash Component are defined as follows:          Portfolio Deposit: Portfolio Deposit consists of pre-defined basket of securities that represent the underlying index and announced by AMC from time to time.          Cash Component: Cash component represents the difference between the applicable net asset value of a creation unit and the market value of the Portfolio deposit.          The Portfolio Deposit and Cash Component may change from time to time due to change in NAV and will be announced by the AMC.          The Creation Unit size for the scheme shall be 1,00,000 units.          No Credit facilities would be extended during the process of Creation of Units.          The subscription &amp; redemption of units would be based on the portfolio deposit &amp; cash component or redemption request as defined by the fund for that respective business day as per applicable cut-off time as provided in the Regulation. The Fund may allow cash purchases/cash redemption of the units of the Scheme or by depositing basket of securities comprising the underlying index in Creation Unit Size by Authorised Participant(s)/ Investor(s). However, such purchase/redemption is subject to regulatory cut-off time and no credit facilities would be available.</p>

<b>Transparency/ NAV disclosure</b>	<p>The AMC will calculate and disclose the first NAV not later than 5 business days from the closure of allotment. Subsequently, the NAV will be calculated and disclosed at the close of every Business Day which shall be published in at least two daily newspapers and also uploaded on the AMFI site <a href="http://www.amfiindia.com">www.amfiindia.com</a> and LIC Nomura Mutual Fund site i.e. <a href="http://www.licnomuramf.com">www.licnomuramf.com</a>. If the NAVs are not available before commencement of business hours on the following day due to any reason, the Fund shall issue a press release providing reasons and explaining when the Fund would be able to publish the NAVs.</p> <p>The monthly portfolio of the scheme (alongwith ISIN) shall also be made available on the website of Mutual Fund (<a href="http://www.licnomuramf.com">www.licnomuramf.com</a>) on or before tenth day of the succeeding month.</p> <p>The units of LIC Nomura MF ETF – NIFTY 100 are listed on the National Stock Exchange of India Limited (NSE)&amp; Bombay Stock Exchange (BSE). All investors including Authorised Participants and Large Investors can subscribe (buy) / redeem (sell) units on a continuous basis on the NSE &amp; BSE on which the Units are listed during the trading hours on all the trading days. In addition, Authorised Participants and Large Investors can directly subscribe to / redeem units of the Scheme on all Business Days as per applicable regulatory cut-off time with the Fund in 'Creation Unit Size' at NAV based prices on an ongoing basis. The Applicable NAV shall be computed on a real time basis considering prevailing market prices and the cash component of the scheme portfolio.</p> <p>I-NAV shall be published on AMC website on all Business Days.</p> <p><b>(Indicative Net Asset Value – Inav</b> - A measure of the intraday net asset value (NAV) of an investment, such as an exchange-traded fund (ETF), which gives an updated measure of the value of the investment based on its assets less its liabilities. An investment's NAV is usually calculated at the end of the trading day, but the indicative NAV measure gives a more real-time view of this value. Indicative NAV is not the price at which you can purchase the instrument; it is only used as a reference for the investment's underlying value. In many cases, the ETF will actually trade at a premium or discount to the NAV due to various factors, including supply and demand, and expectations.</p> <p>I-NAV shall be disclosed on AMC website at every 30 minutes interval on all Business Days.</p> <p>The information on NAV may be obtained by the Unitholders on any day from the office of the AMC / the office of the Registrar in Hyderabad or any of the other Designated Investor Service Centres. Investor may also call on Toll Free 1800 258 5678. Publication of Abridged Half-yearly Unaudited Financial Results in the newspapers or as may be prescribed under the Regulations from time to time. Communication of Portfolio on a half-yearly basis to the Unit holders directly or through the Publications or as may be prescribed under the Regulations from time to time. Despatch of the Annual Reports of the respective Schemes within the stipulated period as required under the Regulations.</p>

# 1. INTRODUCTION

---

## A. RISK FACTORS-2

---

### STANDARD RISK FACTOR:

1. Mutual Fund and securities investments are subject to market risks and there can be no assurance or guarantee that the objectives of the Scheme will be achieved.
2. Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
3. As the price / value / interest rates of the securities in which the Scheme invest fluctuate, the value of your investment in the scheme may go up or down depending on the various factors and forces affecting government securities market and money markets.
4. Past performance of the Sponsor / AMC / Mutual Fund does not guarantee future performance of the Scheme and may not necessarily provide a basis of comparison with other investments.
5. LIC Nomura MF ETF – NIFTY 100, is the name of the Scheme and do not, in any manner, indicate either the quality of the Scheme or their future prospects or returns.
6. The Sponsors are not responsible or liable for any loss resulting from the operation of the Schemes beyond the initial contribution of Rs. 2crs made by it towards setting up the Fund.
7. The present scheme is not guaranteed or assured return scheme.

### SCHEME SPECIFIC RISK FACTOR:

- a. The Trustees, AMC, Fund, their directors or their employees shall not be liable for any tax consequences that may arise in the event that the scheme is wound up for the reasons and in the manner provided under the Scheme Information Document & Statement of Additional Information.
- b. Redemption by the unit holder due to change in the fundamental attributes of the Scheme or due to any other reasons may entail tax consequences. The Trustees, AMC, Fund their directors or their employees shall not be liable for any tax consequences that may arise.
- c. The tax benefits described in the SAI & SID are as available under the present taxation laws and are available subject to relevant condition. The information given is included only for general purpose and is based on advice received by the AMC regarding the law and practice currently in force in India and the Investors and Unit Holders should be aware that the relevant fiscal rules or their interpretation may change. As in the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of the investment in the Scheme will endure indefinitely. In view of the individual nature of tax consequences, each Investor / Unit holder is advised to consult his/her/its own professional tax advisor.
- d. LIC Nomura MF ETF NIFTY 100 would be investing in equities. money market instruments (such as CBLO or as defined by SEBI regulations, term/notice money market, repos, reverse repos and any alternative as may be directed by the RBI). The liquidity of the scheme's investments is inherently restricted by trading volumes and settlement periods. In the event of an inordinately large number of redemption requests, or of a restructuring of the scheme's investment portfolio, these periods may become significant. In view of the same, the Trustees have the right in their sole discretion to limit redemptions (including suspending redemptions) under certain circumstances.
- e. The Mutual Fund is not assuring any dividend nor is it assuring that it will make any dividend distributions. All dividend distributions are subject to the availability of distributable surplus and would depend on the performance of the scheme.
- f. Portfolio concentration risk : ETF being a passive investment carries lesser risk as compared to active fund management. The portfolio follows the index and therefore the level of stock concentration in the portfolio and its volatility would be the same as that of the index, subject to tracking error. Thus there is no additional element of volatility or stock concentration on account of fund manager's decisions.

#### **RISK FACTORS ASSOCIATED WITH INVESTMENTS IN EQUITY AND EQUITY RELATED SECURITIES:**

- Equity and Equity related instruments on account of its volatile nature are subject to price fluctuations on daily basis. The volatility in the value of the equity and equity related instruments is due to various micro and macro economic factors affecting the securities markets. This may have adverse impact on individual securities /sector and consequently on the NAV of Scheme.
- The inability of the Scheme to make intended securities purchases due to settlement problems, could cause the Scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances.
- Similarly, the inability to sell securities held in the schemes portfolio may result, at times, in potential losses to the scheme, should there be a subsequent decline in the value of the securities held in the schemes portfolio.
- Trading volumes, settlement periods and transfer procedures may restrict the liquidity of the investments. This may impact the ability of the unit holders to redeem their units. In view of this, the Trustee has the right, in its sole discretion to limit redemptions (including suspending redemptions) under certain circumstances.
- The AMC may invest in unlisted securities that offer attractive yields within the regulatory limit. This may however increase the risk of the portfolio as these unlisted securities are inherently illiquid in nature and carry larger liquidity risk as compared to the listed securities or those that offer other exit options to the investors.
- Investments in equity and equity related securities involve high degree of risks and investors should not invest in the Scheme unless they can afford to take the risk of losing their investment.

#### **RISKS ASSOCIATED WITH MARKET TRADING:**

- **Absence of Prior Active Market:** Although the units of Exchange Traded Funds are listed on the Stock Exchange for trading, there can be no assurance that an active secondary market will develop or be maintained.
- **Lack of Market Liquidity:** Trading in units of Exchange Traded Funds on the Stock Exchange on which it is listed may be halted because of market conditions or for reasons that, in the view of the concerned Stock Exchange or Market Regulator, trading in the Exchange Traded Fund Units is inadvisable. In addition, trading in the units of Exchange Traded Funds is subject to trading halts caused by extraordinary market volatility pursuant to 'circuit breaker' rules. There can be no assurance that the requirements of the concerned Stock Exchange necessary to maintain the listing of the units of Exchange Traded Funds will continue to be met or will remain unchanged.
- **Units of Exchange Traded Funds May Trade at Prices Other than NAV:** Units of Exchange Traded Funds may trade above or below their NAV. The NAV of Units of Exchange Traded Funds may fluctuate with changes in the market value of a Scheme's holdings. The trading prices of units of Exchange Traded Fund will fluctuate in accordance with changes in their NAVs as well as market supply and demand. However, given that Exchange Traded Funds can be created / redeemed in Creation Units, directly with the fund, large discounts or premiums to the NAVs will not sustain due to arbitrage possibility available.
- **Regulatory Risk:** Any changes in trading regulations by the Exchange or SEBI may affect the ability of market maker to arbitrage resulting into wider premium/ discount to NAV. Although LIC Nomura MF Exchange Traded Fund – NIFTY 100 are proposed to be listed on an Exchange, the AMC and the Trustees will not be liable for delay in listing of Units of the Scheme on Exchange / or due to connectivity problems with the depositories due to the occurrence of any event beyond their control.
- **Political Risks:** Whereas the Indian market was formerly restrictive, a process of deregulation has been taking place over recent years. This process has involved removal of trade barriers and protectionist measures, which could adversely affect the value of investments. It is possible that the future changes in the Indian political situation, including political, social or economic instability, diplomatic developments and changes in laws and regulations could have an effect on the value of investments. Expropriation, confiscatory taxation or other relevant developments could affect the value of investments.
- **Right to Limit Redemptions:** The Trustee, in the general interest of the unit holders of the Scheme offered under this Offer Document and keeping in view of the unforeseen circumstances/unusual market conditions, may limit

the total number of Units which can be redeemed on any Business Day depending on the total “Saleable Underlying Stock” available with the fund.

- **Redemption Risk** – The Unit Holders may note that even though this is an open ended scheme, the Scheme would ordinarily repurchase Units in Creation Unit size. Thus unit holdings less than the Creation Unit size can normally only be sold through the secondary market, unless no quotes are available on the Exchange for 3 trading days consecutively.
- **Passive Investments:** As LIC Nomura MF Exchange Traded Fund – NIFTY 100 is not actively managed, the underlying investments may be affected by a general decline in the Indian markets relating to its Underlying Index. The scheme invests in the securities included in its underlying index regardless of their investment merit. The AMC does not attempt to take defensive positions in declining markets. Further, the fund manager does not make any judgment about the investment merit nor shall attempt to apply any economic, financial or market analysis.

#### **RISK FACTORS ASSOCIATED WITH INVESTMENTS IN FIXED INCOME SECURITIES:**

- **Price-Risk or Interest-Rate Risk:** Fixed income securities such as bonds, debentures and money market instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates. However, debt securities in this scheme are intended to be held till maturity. For such securities held till maturity, there will not be any interest rate risk at the end of the tenure.
- **Credit Risk:** In simple terms this risk means that the issuer of a debenture/ bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. Even where no default occurs, the price of a security may go down because the credit rating of an issuer goes down. It must, however, be noted that where the Scheme has invested in Government securities, there is no credit risk to that extent.
- **Liquidity or Marketability Risk:** This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is today characteristic of the Indian fixed income market.
- **Reinvestment Risk:** Investments in fixed income securities may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.
- **Pre-payment Risk:** Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the fund to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the fund.
- Different types of securities in which the scheme would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly the scheme's risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher amount of risk than Government securities.

#### **RISKS ASSOCIATED WITH SHORT SELLING AND SECURITIES LENDING & BORROWING: : 6**

The scheme will not indulge in any Stock Lending & borrowing and Short Selling activities.

#### **RISKS ASSOCIATED WITH INVESTMENT IN ADR/GDR AND FOREIGN SECURITIES : : 3**

The scheme will not have any exposure in ADR/ GDR and foreign securities.

#### **OTHER RISKS**

**Risk associated with inflation:** Over time, yields of short-term investments may not keep pace with inflation, leading to a reduction in an investment's purchasing power.

**Legal Risk:** The scheme may be affected by the actions of government and regulatory bodies. Legislation could be imposed retrospectively or may be issued in the form of internal regulations which the public may not be aware of. Legislation (including legislation relating to tax) or regulation may be introduced which inhibits the scheme from pursuing their strategies or which renders an existing strategy less profitable than anticipated. Such actions may take any form, for example nationalization of any institution or restrictions on investment strategies in any given market sector or changing requirements and imposed without prior warning by any regulator.

**Valuation Risk:** This risk relates to the fact that markets, in specific situations and due to lack of volumes of transactions, do not enable an accurate assessment of the fair value of invested assets. In such cases, valuation risk represents the possibility that, when a financial instrument matures or is sold in the market, the amount received is less than anticipated, incurring a loss to the portfolio and therefore impacting negatively the NAV of the scheme.

Past performance of the Sponsor/ the AMC/ the Mutual Fund is not indicative of the future performance of the Scheme. LIC Nomura MF Exchange Traded Fund – NIFTY 100 is the name of the Scheme and does not in any manner indicate either the quality of the Scheme; its future prospects or returns.

## **B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME**

As per Circular number SEBI/IMD/CIR NO 10/22701/03 dated December 12, 2003, the above guidelines are not applicable for Exchange Traded Funds. As LIC Nomura MF Exchange Traded Fund – NIFTY 100 is an exchange traded fund, same is not applicable.

## **C. SPECIAL CONSIDERATION**

Prospective investors should study this Scheme Information Document and Statement of Additional Information carefully in its entirety and should not construe the contents hereof as advice relating to legal, taxation, financial, investment or any other matters and are advised to consult their legal, tax, financial, investment and other professional advisors to determine possible legal, tax, financial or other considerations of subscribing to or redeeming Units, before making a decision to invest/redeem/hold Units.

1. Neither this SID, SAI nor the Units being offered have been registered in any jurisdiction outside India. The distribution of this SID or SAI in certain jurisdictions may be restricted or totally prohibited or subject to registration requirements and accordingly, persons who come into possession of this SID or SAI are required to inform themselves about and to observe any such restrictions and/ or legal compliance requirements, as may be applicable. This SID does not constitute an offer or solicitation to any person within such jurisdiction. The Trustee may compulsorily redeem any units held directly or beneficially in contravention of these prohibitions.

2. It is the responsibility of any person in possession of this SID and of any person wishing to apply for Units pursuant to this SID to be informed of and to observe, all applicable laws and Regulations of such relevant jurisdiction.

3. The AMC, Trustee or the Mutual Fund have not authorized any person to issue any advertisement or to give any information or to make any representations, either oral or written, other than that contained in this SID or the SAI or as provided by the AMC in connection with this offering. Prospective investors are advised not to rely upon any information or representation not incorporated in the SID or SAI or as provided by the AMC as having been authorized by the Mutual Fund, the AMC or the Trustee.

4. Redemption due to change in the fundamental attributes of the Scheme or due to any other reasons may entail tax consequences. The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any such tax consequences that may arise due to such Redemptions.

5. The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any of the tax consequences that may arise, in the event that the Scheme is wound up for the reasons and in the manner provided in SAI.

6. The tax benefits described in this Scheme Information Document and in the Statement of Additional Information

are as available under the present taxation laws and are available subject to relevant conditions. The information given is included only for general purpose and is based on advice received by the AMC regarding the law and practice currently in force in India as on the date of this SID and the investors should be aware that the relevant fiscal rules or their interpretation may change. As is the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of an investment in the Scheme will not undergo change. In view of the individual nature of tax consequences, each Unit holder is advised to consult his / her own professional tax advisor.

7. The Mutual Fund may disclose details of the investor's account and transactions there under to those intermediaries whose stamp appears on the application form or who have been designated as such by the investor. In addition, the Mutual Fund may disclose such details to the bankers, as may be necessary for the purpose of effecting payments to the investor. The Fund may also disclose such details to regulatory and statutory authorities/bodies as may be required or necessary.

8. The AMC or its Sponsor or its Shareholders or their affiliates/associates or group entities may, either directly or indirectly invest in this Scheme and/ or any other Schemes, present or future, and such investment could be substantial. Redemption of substantial portion of such investment by these entities may have an adverse impact on the NAV of the Scheme. This may also affect the ability of the other Unit holders to redeem their units.

9. As the liquidity of the Scheme investments may sometimes be restricted by trading volumes and settlement periods, the time taken by the Fund for Redemption of Unit may be significant in the event of an inordinately large number of Redemption Requests or of a restructuring of the Scheme portfolio. In view of this, the Trustee has the right, in its sole discretion, to limit redemptions under certain circumstances - please refer to the paragraph "Right to Limit Redemption" in the SAI.

10. It may be noted that no prior intimation/indication would be given to investors when the composition of asset allocation pattern of the Scheme undergoes changes within the permitted band as mentioned in this document.

11. Pursuant to the provisions of Prevention of Money Laundering Act, 2002, the Rules issued thereunder and the guidelines / circulars issued by SEBI regarding the Anti Money Laundering (AML) Laws, all intermediaries, including Mutual Funds, have to formulate and implement a client identification programme, verify and maintain the record of identity and address(es) of investors, If after due diligence, the AMC believes that any transaction is suspicious in nature as regards money laundering, or on failure to provide required documentation, information, etc. by the Unit holder the AMC shall have absolute discretion to report such suspicious transactions to FIU-IND (Financial Intelligence Unit - India) and / or to freeze the folios of the investor(s), reject any application(s)/redemptions / allotment of Units.

## **II. INFORMATION ABOUT THE SCHEME**

### **A. NAME & TYPE OF THE SCHEME**

LIC Nomura MF ETF – NIFTY 100 is an open ended Exchange Traded Fund.

### **B. INVESTMENT OBJECTIVE OF THE SCHEME**

The investment objective of the scheme is to provide returns that closely correspond to the total returns of securities as represented by NIFTY 100 INDEX, subject to tracking errors.

However there is no guarantee or assurance that the investment objective of the scheme will be achieved.

### C. HOW WILL THE SCHEME ALLOCATE ITS ASSETS:- 14

Under normal circumstances, the asset allocation pattern will be as follows:

Instruments	Indicative allocations (% of total assets)		Risk Profile
	Minimum	Maximum	High/Medium/Low
Securities covered by the NIFTY 100	95	100	Medium to High
Cash and cash equivalent /Money Market instruments including CBLO (with maturity not exceeding 91 days)	0	5	Low

Money Market Instruments include commercial papers, commercial bills, treasury bills, and Government securities having an unexpired maturity upto one year, call or notice money, certificate of deposit, usance bills, CBLOs and any other like instruments as specified by the Reserve Bank of India from time to time.

The net assets of the scheme will be invested predominantly in securities constituting the NIFTY 100 INDEX. This would be done by investing in all securities with the same weightage that they represent in the NIFTY 100 INDEX.

A small portion of the net assets will be invested in Debt and money market instruments permitted by SEBI / RBI to meet the liquidity requirements of the scheme.

The scheme does not intend to invest in securitized debt instruments and foreign securities.

The scheme would not invest in derivatives.

The Scheme shall not engage in securities lending and borrowing.

The scheme will not engage in short selling activities.

Subject to the SEBI Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. . These proportions can vary substantially depending upon the perception of the Investment Manager; the intention being at all times to seek to protect the interests of the Unitholders. Such changes in the investment pattern will be for short term and for defensive considerations only.

Since, LIC Nomura MF ETF – NIFTY 100 is a passively managed exchange traded open ended index scheme, therefore change in investment pattern is normally not foreseen. However, for short durations part of the corpus may be pending for deployment, in cases of extreme market conditions or special events.

In the event of any deviations below the minimum limits or beyond the maximum limits as specified in the above table, the Fund Manager shall rebalance the portfolio within a period of 7 days. Also, the AMC shall ensure that in case of involuntary corporate action undertaken in the underlying securities, the portfolio will be rebalanced within a period of 30 days.

### D. WHERE WILL THE SCHEME INVEST? 15

**Investment in Equities and equity related instruments:** The Scheme would invest in stocks comprising the NIFTY 100 INDEX in the same proportion (weightage) as in the Index and endeavor to track the benchmark index.

**Investment in money market instrument:** The Scheme may also invest in money market instruments, in compliance with Regulations to meet liquidity requirements. The scheme may also invest in liquid schemes of LIC Nomura Mutual Fund or of any other fund house. Money Market Instruments include commercial papers, treasury bills, and Government securities having an unexpired maturity upto one year, call or notice money, certificate of deposit, CBLOs and any other like instruments as specified by the Reserve Bank of India from time to time.

The liquid schemes launched by SEBI registered Mutual Fund or schemes that invest predominantly in money market instruments / securities.

The investment restrictions and limits are specified in Schedule VII of SEBI (MF) Regulations, 1996 which are mentioned under the heading ‘Investment Restrictions’.

## **E. WHAT ARE THE INVESTMENT STRATEGIES? 7**

The Fund would invest not less than 95% of its corpus in securities comprising the NIFTY 100 INDEX and endeavor to track the benchmark index while minimizing the tracking error and therefore would follow a passive investment strategy. The scheme would aim to maintain least amount of cash & will also try & avoid investment in debt & money market securities. This would only be for the purpose of redemption requirements.

LIC Nomura MF ETF NIFTY 100 is a passively managed exchange traded fund which will employ an investment approach designed to track the performance of NIFTY 100 Index. The Scheme seeks to achieve this goal by investing in securities constituting the NIFTY 100 Index in same proportion as in the Index. The Scheme will invest at least 95% of its total assets in the securities comprising the Underlying Index. The Scheme may also invest in money market instruments to meet the liquidity and expense requirements.

The fund is ideal for those investors who would like to participate in the India growth story by passively investing in a well-diversified portfolio of well known companies as approximately represented by NIFTY 100 Index

### **Tracking Error**

Tracking error is defined as the standard deviation of the difference between the daily returns of the Underlying Index and the NAV of the Scheme. Theoretically, the corpus of the Scheme has to be fully invested in the securities comprising the Underlying Index in the same proportion of weights as the securities have in the Underlying Index. However, deviations from the stated index replication may occur due to reason that the Scheme has to incur expenses, corporate actions pertaining to the Index including changes to the constituents, regulatory policies, ability of the Fund Manager to closely replicate the Underlying Index, etc. The Scheme's returns may therefore deviate from those of its Underlying Index. Tracking Error may arise due to the following reasons:

1. Fees and expenses of the Scheme.
2. Cash balance held by the Scheme due to dividend received subscriptions, redemption, etc.
3. Halt in trading on the stock exchange due to circuit filter rules.
4. Corporate actions
5. The Scheme has to invest in the securities in whole numbers and has to round off the quantity of securities shares.
6. Dividend payout.
7. Changes in the constituents of the underlying Index. Whenever there are any changes, the Scheme has to reallocate its investment as per the revised Index but market conditions may not offer an opportunity to rebalance its portfolio to match the Index and such delay may affect the NAV of the Scheme.

The AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. Under normal market circumstances, such tracking error is not expected to exceed by 2% p.a. However, in case of events like, dividend issuance by constituent members, rights issuance by constituent members, and market volatility during rebalancing of the portfolio following the rebalancing of the Underlying Basket, etc. or in abnormal market circumstances, the tracking error may exceed the above limits. There can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to performance of the Index.

### **Risk Control**

Since investing requires disciplined risk management, the AMC would endeavor to incorporate adequate safeguards for controlling risks in the portfolio construction process. The Fund Manager will also review all counterparties prior to transacting, using internal guidelines. The fund manager shall follow the asset allocation pattern in SID under normal circumstances and residual cash may be invested in the collateralised borrowing & lending obligations (CBLO) / repo market, which seeks to ensure liquidity in the scheme under normal circumstances. There can however be no guarantee against liquidity issues within the scheme.

The AMC may also implement certain internal control procedures / risk & exposure limits etc. for controlling risks which may be varied from time to time

## Portfolio Turnover Policy

Generally, turnover will be confined to rebalancing of portfolio on account of change in the composition and corporate actions of NIFTY 100 Index.

## F. ABOUT THE INDEX :

---

NIFTY 100 tracks the behavior of combined portfolio of two indices viz. NIFTY 50 and NIFTY Next 50. It is a diversified 100 stock index accounting for 38 sectors of the economy.

NIFTY 100 is computed using free float market capitalization method wherein the level of the index reflects total free float market value of all the stocks in the index relative to a particular base market capitalization value. The method also takes into account constituent changes in the index and importantly corporate actions such as stock splits, rights, new issue of shares etc. without affecting the index value. The NIFTY 100 Index has a base date of Jan 1, 2003 and a base value of 1000. The maintenance of the NIFTY 50 and the NIFTY Next 50 are synchronized so that the two indices will always be disjoint sets i.e. a stock will never appear in both indices at the same time. Hence it is always meaningful to pool the NIFTY 50 and the NIFTY Next 50 into a composite 100 stocks index or portfolio.

### Selection Criteria

NIFTY 100 index would comprise of the securities which are constituents of NIFTY 50 and NIFTY Next 50. In other words, this index is a combination of the NIFTY 50 and NIFTY Next 50. Any changes i.e. inclusion and exclusion of securities in NIFTY 50 and NIFTY Next 50 would be automatically mirrored in this index.

The Trustees may from time to time alter these restrictions in conformity with the SEBI Regulations

The investment manager may, from time to time invest its own funds in the scheme at its discretion. However, the investment manager shall not be entitled to charge any fees on its investments in the scheme. <sup>17</sup>

## K. SCHEME PERFORMANCE SO FAR:

LIC Nomura MF ETF – NIFTY 100 is new scheme and does not have any performance track record.

## L. INTRODUCTION TO EXCHANGE TRADED FUND

### A) Exchange Traded Fund (ETF)

Exchange Traded Funds are innovative products that provide exposure to an index or a basket of securities that trade on the exchange like a single stock. Exchange Traded Funds have a number of advantages over traditional open ended index funds as they can be bought and sold on the exchange at prices that are usually close to the actual intra-day NAV of the Scheme. Exchange Traded Funds are an innovation to traditional mutual funds as Exchange Traded Funds provide investors a fund that closely tracks the performance of an index with the ability to buy / sell on an intra-day basis. Unlike listed close ended funds, Exchange Traded Funds are structured in a manner which allows creating new units and redeeming outstanding units directly with the fund, thereby ensuring that Exchange Traded Funds trade close to their actual NAVs.

Exchange Traded Funds are usually passively managed funds wherein subscription / redemption of units work on the concept of exchange with underlying securities. In other words, large investors / institutions can purchase units by depositing the underlying securities with the fund / AMC and can redeem by receiving the underlying shares in exchange of units. Units can also be bought and sold directly on the exchange.

Exchange Traded Funds have all the benefits of indexing such as diversification, low cost and transparency. As Exchange Traded Funds are listed on the exchange, costs of distribution are much lower and the reach is wider. These savings in cost are passed on to the investors in the form of lower costs. Furthermore, exchange traded mechanism helps reduce minimal collection, disbursement and other processing charges.

The structure of Exchange Traded Funds is such that it protects long-term investors from inflows and outflows of short-term investor. This is because the fund does not bear extra transaction cost when buying / selling due to frequent subscriptions and redemptions.

Tracking Error of Exchange Traded Funds is likely to be low as compared to a normal index fund. Due to the Creation / Redemption of units through the in-kind mechanism the fund can keep lesser funds in cash. Also, time lag between buying / selling units and the underlying shares is much lower.

Exchange Traded Funds are highly flexible and can be used as a tool for gaining instant exposure to the equity markets, equitising cash or for arbitraging between the cash and futures market.

### Benefits of EXCHANGE TRADED FUNDS

1. Can be easily bought / sold like any other stock on the exchange through terminals spread across the country.
2. Can be bought / sold anytime during market hours at prices that are expected to be close to actual NAV of the Scheme. Thus, investor invests at real-time prices as opposed to end of day prices.
3. No separate form filling for buying / selling units. It is just a phone call to your broker or a click on the net.
4. Ability to put limit orders.
5. Minimum investment for an Exchange Traded Fund is one unit.
6. Protects long-term investors from the inflows and outflows of short-term investors.
7. Flexible as it can be used as a tool for gaining instant exposure to the equity markets, hedging or for arbitraging between the cash and futures market.
8. Helps in increasing liquidity of underlying cash market.
9. Aids low cost arbitrage between Futures and Cash market.
10. An investor can get a consolidated view of his investments without adding too many different account statements, as Exchange Traded Funds will be in demat form.

### Uses of EXCHANGE TRADED FUNDS:

**1. Investors with a long-term horizon:** Allows diversification of portfolio at one shot, thereby reducing scrip specific risk at a low cost.

**2. FIIs, Institutions and Mutual Funds:** Allows easy asset allocation, hedging at a low cost.

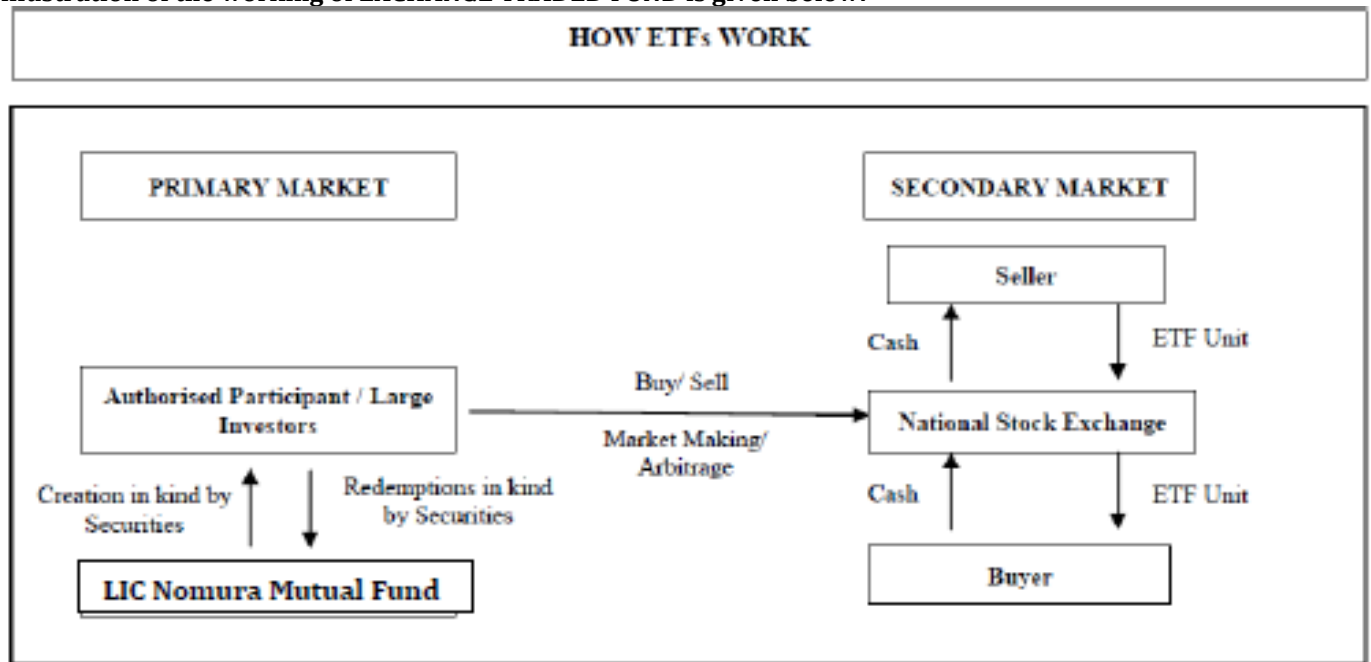

**3. Arbitrage:** Low impact cost to carry out arbitrage between the Cash and the Futures market.

**4. Investors with a shorter term horizon:** Allows liquidity due to ability to trade during the day and expected to have quotes near NAV during the course of trading day.

**Comparison of EXCHANGE TRADED FUNDS v/s Open Ended Funds v/s closes Ended Funds:**

	Open Ended Fund	Closed Ended Fund	Exchange Traded Fund
<b>Fund Size</b>	Flexible	Fixed	Flexible
<b>NAV</b>	Daily	Daily	Real time (indicative NAV)
<b>Liquidity provider</b>	Fund itself	Stock Market	Stock Market / Fund itself
<b>Sale price</b>	At NAV plus load, if any	Significant premium / discount to NAV	Very close to actual NAV of Scheme
<b>Availability</b>	Fund itself	Through Exchange where listed	Through Exchange where listed / Fund itself.
<b>Portfolio disclosure</b>	Disclosed monthly	Disclosed monthly	Daily
<b>Intra-day trading</b>	Not possible	Expensive	Possible at low cost

An illustration of the working of EXCHANGE TRADED FUND is given below:

**B) Investment Process and Recording of Investment Decisions**

The AMC through its various policies and procedures defines prudential and concentration limits to de-risk the portfolio. The investment management team is allowed full discretion to make sale and purchase decisions within the limits established. The responsibility for the investment decisions is with the portfolio managers and the CEO of the AMC does not have any role in the day to day decision making process. All the decisions will be recorded alongwith their justifications. The AMC and Trustee will review the performance of the scheme in their Board meetings. The performance would be compared with the performance of the benchmark index and with peer group in the industry

**C) Investments by the AMC in the Scheme**

The Scheme may, in line with its investment objectives, invest in another Scheme under the management of AMC or of any other Asset Management Company. The aggregate Interscheme investment by LIC Nomura MF under all its Schemes, other than fund of fund schemes, taken together, in another Scheme managed by AMC or in any other Scheme

of any other Mutual Fund, shall not be more than 5% of the net asset value of the Fund. No fee shall be charged by the AMC on any investment in another Scheme under the management of AMC or of any other Asset Management Company.

**D) Investments in the Scheme by the AMC, Sponsor, or their affiliates in the Scheme**

The AMC, Sponsor, Trustee and their associates or affiliates may invest in the scheme during the New Fund Offer Period or through Stock Exchange subject to the SEBI Regulations & circulars issued by SEBI and to the extent permitted by its Board of Directors from time to time. As per the existing SEBI Regulations, the AMC will not charge investment management and advisory fee on the investment made by it in the scheme.

**E) Investment of Subscription Money**

The AMC shall commence investment out of the NFO proceeds received in accordance with the investment objectives of the Scheme only on or after the closure of the NFO period

**M. Debt And Money Markets In India: -12**

---

The instruments available in Indian Debt Market are classified into two categories, namely Government and Non - Government debt. The following instruments are available in these categories:

**a) Government Debt**

• Central Government Debt • Zero Coupon Bonds • Treasury Bills • State Government Debt • Dated Government Securities • State Government Loans • Coupon Bearing Bonds • Floating Rate Bonds

**b) Non-Government Debt**

• Instruments issued by Government Agencies and other Statutory Bodies • Instruments issued by Banks and Development Financial institutions • Government Guaranteed Bonds • PSU Bonds • Instruments issued by Public Sector Undertakings • Instruments issued by Corporate Bodies • Fixed Coupon Bonds • Floating Rate Bonds

• Zero Coupon Bonds Certificates of Deposit • Promissory Notes • Commercial Paper • Non-Convertible Debentures • Fixed Coupon Debentures • Floating Rate Debentures • Zero Coupon Debentures

**c) Certificate of Deposit (CD):**

Certificate of Deposit (CD) is a negotiable money market instrument issued by scheduled commercial banks (SCBs) and select All India Financial Institutions (FIs), within their umbrella limit. The scheme introduced by RBI allows these institutions to mobilize bulk deposits from the market, which they can have at competitive rates of interest. The maturity period of CDs issued by the SCBs is between 7 days to 1 year. CDs also are issued at a discount to face value and can be traded in secondary market. Duplicate can be issued after giving a public notice & obtaining indemnity.

**d) Collateralized Borrowing and Lending Obligations (CBLO):**

Collateralized Borrowing and Lending Obligations (CBLO) is a money market instrument that enables entities to borrow and lend against sovereign collateral security. The maturity ranges from 1 day to 90 days and can also be made available up to 1 year. Central Government securities including Treasury Bills are eligible securities that can be used as collateral for borrowing through CBLO. These instruments benefit entities who have either been phased out from inter-bank call money market or have been given restricted participation in terms of ceiling on call borrowing and lending transactions and who do not have access to the call money market.

**e) Commercial Paper (CP):**

Commercial Paper (CP) is an unsecured negotiable money market instrument issued in the form of a promissory note, generally issued by the corporates, primary dealers and All India Financial Institutions as an alternative source of short-term borrowings. CP is traded in secondary market and can be freely bought and sold before maturity. CP can be issued for maturities between a minimum of 15 days and a maximum up to 1 year from the date of issue.

#### **f) Non Convertible Debentures and Bonds**

Non convertible debentures as well as bonds are securities issued by companies / institutions promoted / owned by the Central or State Governments and statutory bodies which may or may not carry a guarantee. Nonconvertible debentures are unsecured bonds that cannot be converted to company equity or stock. Nonconvertible debentures usually have higher interest rates than convertible debentures. These instruments may be secured or unsecured against the assets of the Company and generally issued to meet the short term and long term fund requirements.

#### **g) Floating Rate Debt Instruments**

Floating rate debt instruments are instruments issued by Central / State Governments, corporates, PSUs, etc. with interest rates that are reset periodically, with rates tied to a representative interest rate index. Floating rate instruments offer enhanced yields when compared to a strategy of rolling over comparably rated short-term instruments and paying the related costs associated with each transaction. Floating-rate securities also allow investors to match asset and liability cash flows.

Activity in the Primary and Secondary Market is dominated by Central Govt. Securities including Treasury Bills. These instruments comprise close to 60% of the all outstanding debt and more than 75% of the daily trading volume on the wholesale Debt Market Segment of the National Stock Exchange of India Limited.

In the money market, activity levels of the Government and Non-Government Debt vary from time to time. Instruments that comprise a major portion of money market activity include Overnight Call, CBLO, Treasury Bills, Government Securities with a residual maturity of less than 1 year, Commercial Papers, Certificate of Deposit.

Apart from these, there are some other options available for short tenure investments that include MIBOR linked debentures with periodic exit options and other such instruments. Though, not strictly classified as Money Market Instruments, PSC / DFI / Corporate Paper with a residual maturity of less than 1 year are actively traded and offer a viable investment option.

Currently the indicative yields for some of the money market instruments are as follows:

## N. HOW THE SCHEME IS DIFFERENT FROM THE EXISTING OPEN ENDED EXCHANGE TRADED FUNDS OF THE MUTUAL FUND

### 1) LIC Nomura MF G-Sec Long Term ETF

**Investment Objective:** The investment objective of the scheme is to provide returns that closely correspond to the total returns of securities as represented by Nifty 8-13 yr G-Sec Index, subject to tracking errors. However there is no assurance that the investment objective of the scheme will be achieved.

**Investment Strategy:** The Fund would invest not less than 95% of its corpus in securities comprising the underlying index and endeavor to track the benchmark index while minimizing the tracking error and therefore would follow a passive investment strategy. The scheme would aim to maintain least amount of cash & will also try & avoid investment in debt & money market securities. These would only be for the purpose of redemption requirements.

**Asset Allocation Pattern :** Securities comprising of underlying benchmark Index - 95-100% ; Other Debt and Money market instruments - 0-5%.

**Differentiation :** The Fund intends to invest in Government Securities issued by Central / State government. The Nifty 8-13 yr G-Sec Index best captures this theme. This benchmark shall provide the investor with an independent and representative comparison with fund portfolio.

The Nifty 8-13 yr G-Sec Index is constructed using the prices of top 5 (in terms of traded value) liquid GOI bonds with residual maturity between 8 to 13 years and have outstanding issuance exceeding Rs.5000 crores. The individual bonds are assigned weights considering the traded value and outstanding issuance in the ratio of 40:60. The index measures the changes in the prices of the bond basket. The basket is rebalanced at the end of every month. The base date is Jan 03, 2011 and base number is 1000.

**AUM** as on 31<sup>st</sup> January 2016 – 67.60 Crs. **And Number of Folios :** 200

### 2) LIC Nomura MF ETF – Nifty 50

**Investment Objective:** The investment objective of the scheme is to provide returns that closely correspond to the total returns of securities as represented by NIFTY 50 Index, subject to tracking errors. However there is no assurance that the objective of the scheme will be achieved

**Investment Strategy:** The Fund would invest not less than 95% of its corpus in securities comprising the NIFTY 50 Index and endeavor to track the benchmark index while minimizing the tracking error and therefore would follow a passive investment strategy. The scheme would aim to maintain least amount of cash & will also try & avoid investment in debt & money market securities. This would only be for the purpose of redemption requirements.

**Differentiation :** The Scheme, primarily invests in securities which are constituents of NIFTY 50 Index Thus, the composition of the aforesaid benchmark is such that it is most suited for comparing performance of the Scheme. The benchmark may be changed in future, if a benchmark better suited to the investment objective of the scheme is available, as may be decided by the AMC and the Trustee in line with SEBI (Mutual Fund) Regulations, 1996 and any change at a later date shall be recorded and reasonably justified and regarded as fundamental attribute change.

### 3) LIC Nomura MF ETF – Sensex

**Investment Objective:** The investment objective of the scheme is to provide returns that, closely correspond to the total returns of the securities as represented by the S&P BSE SENSEX by holding S&P BSE SENSEX stocks in same proportion, subject to tracking errors. However there is no assurance that the objective of the scheme will be achieved.

**Investment Strategy:** The Fund would invest not less than 95% of its corpus in securities comprising the S&P BSE SENSEX and endeavor to track the benchmark index while minimizing the tracking error and therefore would follow a passive investment strategy. The scheme would aim to maintain least amount of cash & will also try & avoid investment in debt & money market securities. This would only be for the purpose of redemption requirements.

**Differentiation :** The Scheme, primarily invests in securities which are constituents of BSE SENSEX Index. Thus, the composition of the aforesaid benchmark is such that it is most suited for comparing performance of the Scheme. The benchmark may be changed in future, if a benchmark better suited to the investment objective of the scheme is available, as may be decided by the AMC and the Trustee in line with SEBI (Mutual Fund) Regulations,

1996 and any change at a later date shall be recorded and reasonably justified and regarded as fundamental attribute change.

#### **D.COMPUTATION OF NAV**

The Net Asset Value (NAV) per unit will be computed by dividing the net assets of the Scheme by the number of units outstanding on the valuation date.

The Fund will value its investments according to the valuation norms, as specified in Eighth Schedule of the SEBI (MF) Regulations, or such norms as may be specified by SEBI from time to time.

The Net Assets Value (NAV) per unit under the Scheme/Option shall be calculated as follows:

$$\text{NAV} = \frac{\text{Market or Fair Value of Scheme's Investments} + \text{Current Assets including accrued Income} - \text{Current Liabilities and Provisions including accrued expenses}}{\text{No. of Units outstanding under Scheme/ Option}}$$

The NAV shall be calculated up to four decimal places. However the AMC reserves the right to declare the NAVs up to additional decimal places as it deems appropriate. Separate NAV will be calculated and disclosed for each Option.

The AMC will calculate and disclose the first NAV of the Scheme within a period of 5 business days from the date of allotment. Subsequently, the NAVs will be calculated for all the Calendar Days.

## IV. FEES AND EXPENSES

This section outlines the expenses that will be charged to the schemes.

### A. NEW FUND OFFER (NFO) EXPENSES

Service tax on brokerage and transaction cost	
<b>Maximum total expense ratio (TER) permissible under Regulation 52 (6) (c) (i) and (6) (a)</b>	<b>Upto 0.49%</b>

These estimates have been made in good faith as per the information available to the Investment Manager based on past experience but the total expenses shall not exceed the limits permitted by SEBI. Types of expenses charged shall be as per the SEBI (MF) Regulations. The purpose of the above table is to assist the investor in understanding the various costs and expenses that an investor in the scheme will bear directly or indirectly.

Mutual funds /AMCs may charge service tax on actual investment and advisory fees to the scheme in addition to the maximum limit as prescribed in regulation 52 of the SEBI Regulations. Current applicable service tax rate is 14.5% (including education cess and secondary higher education. cess), subject to change from time to time as per relevant statutory regulations.

Service tax on investment and advisory fees charged to the scheme will be in addition to the maximum limit of TER as prescribed in regulation 52 (6) of the SEBI Regulations.

Service tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit as per regulation 52 of the SEBI Regulations.

Service tax on exit load, if any, will be paid out of the exit load proceeds and exit load net of service tax, if any, shall be credited to the scheme.

Service tax on brokerage and transaction cost paid for execution of trade, if any, shall be within the limit prescribed under regulation 52 of the Regulations.

However, no Investment Management fees would be charged on LIC Nomura MF's investment in the Scheme. The Trustee Company, shall be entitled to receive a sum computed @ 0.05% of the Unit Capital of all the Schemes of LIC Nomura MF on 1st April each year or a sum of INR.10, 00,000/- whichever is lower or such other sum as may be agreed from time to time in accordance with the SEBI Regulations or any other authority, from time to time.

The total expenses of the Exchange Traded Fund scheme including the investment management and advisory fee shall not exceed 0.49% of the daily net assets and such other limits as stated in Regulation 52(6).

In addition to the limits specified in regulation 52(6), the following costs or expenses may be charged to the scheme as per new sub regulation

6A, namely-

(a) Brokerage and Transaction costs incurred for the execution of trades may be capitalized to the extent of 0.12 per cent of the value of trades in case of cash market transactions. Payment towards brokerage and transaction costs incurred for the execution of trades, over and above the said 0.12 per cent for cash market transactions may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the SEBI (Mutual Funds) Regulations, 1996. Any expenditure in excess of the said prescribed limit (including brokerage and transaction costs, if any) shall be borne by the AMC or by the Trustee or Sponsors.

The Fund will strive to reduce the level of these expenses so as to keep them well within the maximum limits allowed by SEBI. Expenses on an ongoing basis will not exceed 0.49% of the daily net assets or such maximum limits as may be specified by SEBI Regulations from time to time.

The recurring expenses incurred in excess of the limits specified by SEBI (MF) Regulations will be borne by the AMC or by the Trustee or the Sponsor.

The current expenses charged to the Scheme would be disclosed on the website of the Mutual Fund and in case of change, the Mutual Fund would update the current expense ratios on its website within two working days mentioning the effective date of the change.

### C. LOAD STRUCTURE

Load is an amount which is paid by the investor to subscribe to the units or to redeem the units from the scheme. This amount is used by the AMC to pay commissions to the distributor and to take care of other marketing and selling expenses. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC ([www.licnomuramf.com](http://www.licnomuramf.com)) or may call at Area offices / Business Centers or your distributor.

Type of Load	Load chargeable (as %age of NAV)
Entry*	Nil
Exit	Nil

\*In terms of SEBI circular no. SEBI/IMD/CIR No.4/ 168230/09 dated June 30, 2009, no entry load will be charged by the Scheme to the investor effective August 1, 2009. The upfront commission, if any, on investment made by the investor shall be paid by the investor directly to the Distributor, based on his assessment of various factors including the service rendered by the Distributor.

Any imposition or enhancement in the load shall be applicable on prospective investments only. However, AMC shall not charge any load on issue of bonus units and units allotted on reinvestment of dividend for existing as well as prospective investors. At the time of changing the load structure, the mutual funds may consider the following measures to avoid complaints from investors about investment in the schemes without Knowing the loads **16**

(i) The addendum detailing the changes may be attached to Scheme Information Documents and key information memorandum. The addendum may be circulated to all the distributors/brokers so that the same can be attached to all Scheme Information Documents and key information memoranda already in stock.

(ii) Arrangements may be made to display the addendum in the Scheme Information Document in the form of a notice in all the investor service centers and distributors/brokers office.

(iii) The introduction of the exit load along with the details may be stamped in the acknowledgement slip issued to the investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such load.

(iv) A public notice shall be given in respect of such changes in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the Mutual Fund is situated

(v) Any other measures which the mutual funds may feel necessary.

Investor other than APs/Large investors can directly approach AMC and no exit load shall be charged for redemption of units if:

- a) Traded price of the ETF units is at discount of more than 3% for continuous 30 days, or
- b) Discount of bid price to NAV over a period of 7 consecutive days is greater than 3%, or
- c) No quotes are available on exchange for 3 consecutive trading days, or
- d) Total bid size on the exchange is less than half of creation units size daily, averaged over a period of 7 consecutive trading days.

In such a scenario valid applications received upto 3 p.m. the Mutual Fund shall process the redemption request basis the closing NAV of the day of receipt of application and no exit load shall be charged for redemption of units.

Such instances shall be tracked by LIC Nomura MF AMC on an ongoing basis and in case if any of the above mentioned scenario arises the same shall be disclosed on the website of LIC Nomura Mutual Fund i.e. [www.licnomuramf.com](http://www.licnomuramf.com).
